

# — AEB dives headfirst into the depths of Supply Chain Execution

1

— 2001 – AEB takes the plunge and opens a dedicated UK Support Hotline to provide unrivalled service flow to its customers.

2

— 2002 – The UK implemented the first stage of The New Export System (NES) at all maritime ports on 27th October 2002 to facilitate the processing of electronic export declarations. AEB simultaneously launched its ASSIST4 NES solution which communicates directly with the CHIEF customs declaration processing system.

3

— 2003 – AEB held its Annual User Group Meeting focusing on Customs' Blueprint for International Trade and Modernisation of International Trade Procedures.

4

— 2004 – The launch of the first of AEB's Compliance Solutions empowers companies to execute secure exports. The Advanced Compliance Engine screens suspicious addresses against many of the official black lists which include, among others, The Bank of England Consolidated List of Financial Sanctions Targets and The US Denied Persons List.

5

— 2005 – AEB splashes out and celebrates 5 years of UK business by hosting a free special event. Further details coming soon.
